

# ITEM RECEIPT ADJUSTMENT – HOW TO GUIDE

## Purpose

This guide outlines the correct process for completing an **Item Receipt Adjustment** when stock has been incorrectly receipted against a Purchase Order (P/O).

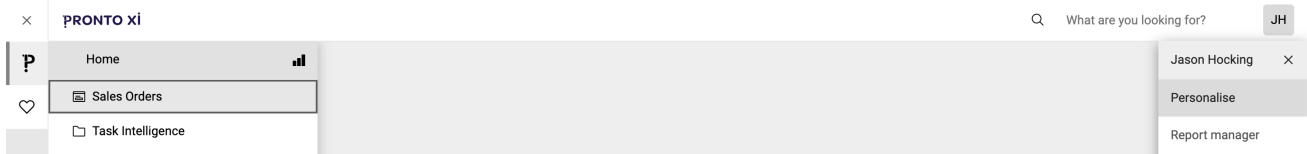

This process should only be used to correct receiving discrepancies and ensure stock and purchase order records remain accurate.

## Part 1: Adding Item Receipt Adjustment to Your Favourites Menu

### Step 1: Log into Pronto Xi

- Log into Pronto Xi using your staff credentials.

### Step 2: Open Personalise Settings

- Select your **initials/profile icon** in the top-right corner of the screen.
- Select **Personalise**.

### Step 3: Open Favourites Menu Settings

- Select **Add/Modify Favourites**.
- Select **Add**.

#### Standard Pronto Xi Function

Module

PO - Purchase Orders

MU18 - Job Receive Requisition

M024 - Item Receipt Adjustments

M027 - Transfer Intercompany PO

Under:

#### Standard Pronto Xi Function – Module

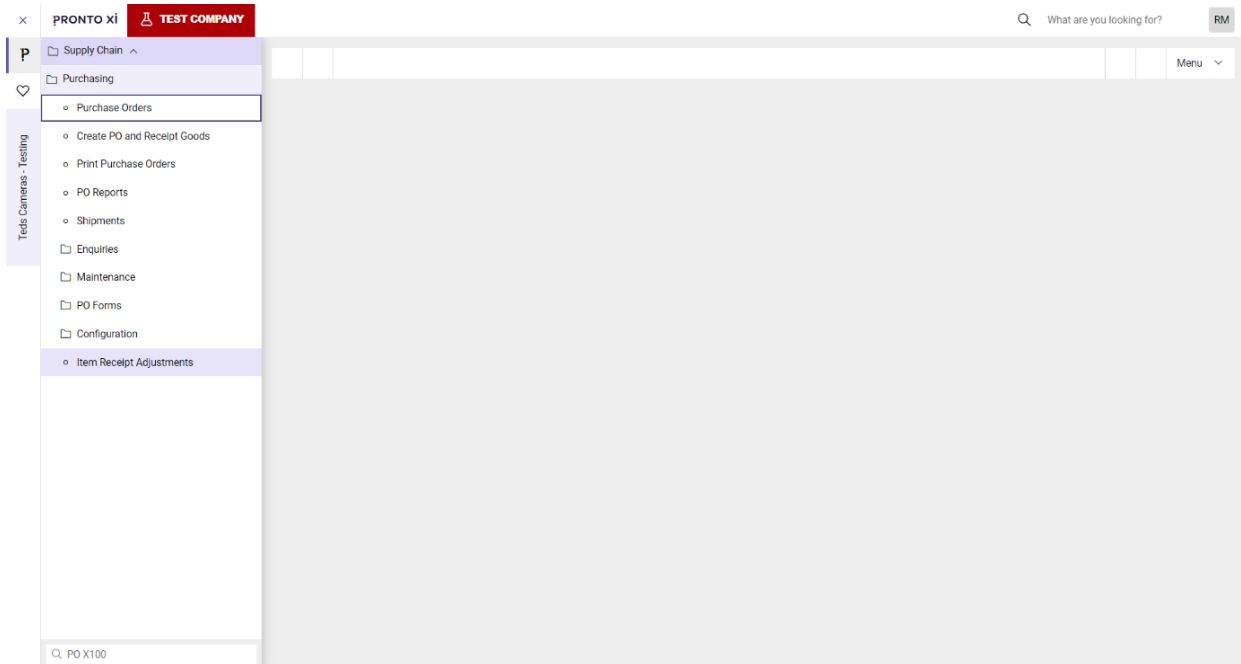

- Select: **PO – Purchase Orders** -
- Select: **M024 – Item Receipt Adjustment** (PO – Purchase Orders must be selected)
- Select the **green tick/arrow** to save.

# ITEM RECEIPT ADJUSTMENT

## Part 2: Completing an Item Receipt Adjustment

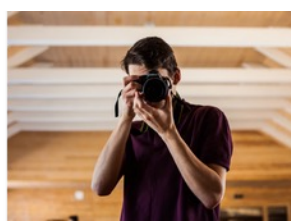

### Step 1: Open Item Receipt Adjustment

- Open the **Item Receipt Adjustment** tab from your Purchase Order menu.

### Step 2: Enter Purchase Order Number

- Enter the relevant **P/O Number** into the **PO Number** field.
- Proceed to open the order.

**Ted's Cameras**  
Expert Advice, Great Price

The 'Item Receipt Adjustments' window shows the following details:

- PO Number: 1514907
- Order Status: Completed
- Item Code: [Magnifying Glass Icon]
- PO Line Seq.: 0.00
- Per: [Blank]
- Unit: [Blank]
- Received Qty: [Blank]
- Already Returned Qty: [Blank]
- Next Action: [Blank]
- New/Returned Qty: 0.0000

The 'Lines for PO:1514907' table shows the following data:

| Seq. | Item Code | Note Description               | Received |
|------|-----------|--------------------------------|----------|
| 1.00 | 115459    | 2ND HAND - Sony A9M2 Body      | 1        |
| 2.00 | 115462    | 2ND HAND - Sony FE 20mm f1.8 G | 1        |
| 3.00 | 115458    | 2ND HAND - Sony FE 200-600     | 1        |

### Step 3: Select the Incorrectly Received Item

- Enter or select the **Item Code** that was receipted incorrectly.
- You can use the **magnifying glass/search function** to view all items received against the P/O.

Important: Ensure the correct item code is selected before proceeding.

The 'Item Receipt Adjustments' window shows the following details:

- PO Number: 1514907
- Order Status: Completed
- Item Code: 115459
- Note Description: 2ND HAND - Sony A9M2 Body
- PO Line Seq.: 1.00
- Per: 1
- Unit: EA
- Received Qty: 1.0000
- Already Returned Qty: 0.0000
- Next Action: [Dropdown Menu]
- New/Returned Qty: [Blank]

The 'Next Action' dropdown menu shows the following options:

- A - Adjust Stock Qty
- N - New PO for Difference and Adjust Stock Qty
- B - Return to Supplier
- W - Write Difference to GL
- X - Return and Exchange

### Step 4: Select the Correct “Next Action” Code

Once the item has been selected, choose the appropriate code from the **Next Action** drop-down menu.

#### “N” – New Order Required

This is the most commonly used option.

Use this when:

- Stock was receipted in error
- The physical goods have not yet arrived
- The goods will still be received later

This option:

- Removes the incorrect receipt
- Automatically creates a new order for the outstanding quantity

The stock can then be receipted correctly once it physically arrives.

#### “A” – Incorrect Item Code

Use this when:

- The wrong item code was added to the P/O

This is most commonly used for:

- Second-hand purchase orders
- Incorrect SKU allocation errors

PO Line Seq.: 2.00

Per: 1

Unit: EA

Received Qty: 1.0000

Already Returned Qty: 0.0000

Next Action: A Adjust Stock Qty

New/Returned Qty: 0.0000

PO M024

Show desktop

### Step 5: Enter Correct Quantity

Enter the quantity that should have originally been receipted.

Important:

This is different from a standard stock adjustment.

Example:

- A P/O for 4 units was receipted incorrectly
- The physical stock was never received

The correct returned quantity should be:

- 0

Do not enter:

- -4

Entering a negative quantity is incorrect and may create additional purchase order discrepancies

### Step 6: Complete the Adjustment

After entering the correct quantity, click the **tick button** in the bottom-right corner to finalise the adjustment.

**Ted's Cameras**  
Expert Advice, Great Price

## Step 7: Resolving Stock Take Errors

Occasionally, you may receive an error preventing the adjustment from processing.

This typically occurs when:

- The receiving error happened before stock take
- The item was counted as zero during stock take
- The system no longer allows the adjustment due to stock discrepancies

## Correcting the Error

### Step 1: Open Stock Take Transactions

Navigate to:

**Supply Chain → Inventory → Transactions → Stock Take → Item Code Order**

### Step 2: Search for the Item

Click **Find**

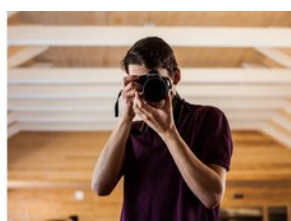

Enter:

Correct warehouse code  
Product code

### Step 3: Adjust the Count Quantity

Update the **Count Qty** to match the discrepancy created by the incorrect P/O receipt.

### Step 4: Reprocess the Item Receipt Adjustment

First Page Up Up Down Page Down Last

Once the stock take quantity has been corrected:

- Return to **Item Receipt Adjustment**
- Complete the adjustment as normal

### Key Notes & Tips

- Always verify the correct item code before processing adjustments.
- “N” should be used when stock has not physically arrived but will still be received later.
- Do not enter negative quantities unless specifically instructed.
- Incorrect adjustments can create additional stock and P/O discrepancies.
- If errors occur after stock take, the stock count must first be corrected before adjustments can proceed.

### Compliance

All team members are responsible for ensuring Item Receipt Adjustments are completed accurately and in accordance with company inventory procedures.

Incorrect adjustments may impact:

- Stock accuracy
- Purchase order reconciliation
- Stock take integrity
- Financial reporting

If unsure, seek assistance before completing the adjustment process.
