Nikon Australia Return Requests

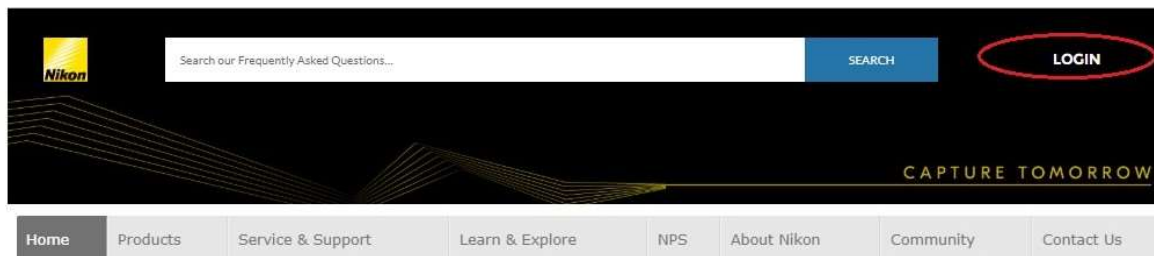

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law to provide the basis for consistent, reasonable and fair decision-making regarding product returns that will impact positively on our customer relationships.

It is our policy to accept product returns from our Retailers if they satisfy the stated reasons for return acceptance and have an approved Return Authorisation Request.

Any new Nikon product(s) found to have a manufacturing defect will be considered as faulty or DOA. *Please refer to the Nikon RA policy for further information*

Any product returns that do not meet the eligibility criteria may be considered a service warranty repair (please refer to <https://support.nikon.com.au> and select 'Create Repair Case').
