

ZIP MONEY PAYMENT INSTRUCTIONS

Purpose

These instructions outline the correct process for creating and completing an **in-store Zip transaction** using the Zip Merchant Dashboard, ensuring payments are processed accurately and efficiently.

When to Use These Instructions

- Use this process when:
- A customer chooses to pay using **Zip Pay, Zip Plus, or Zip Money**
- The transaction is completed **in-store**
- The customer presents an **in-app barcode** from the Zip app

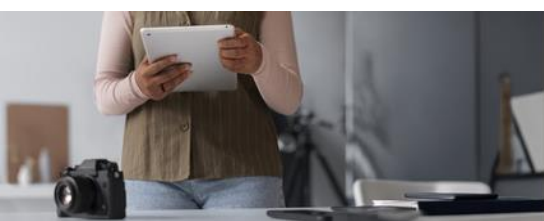

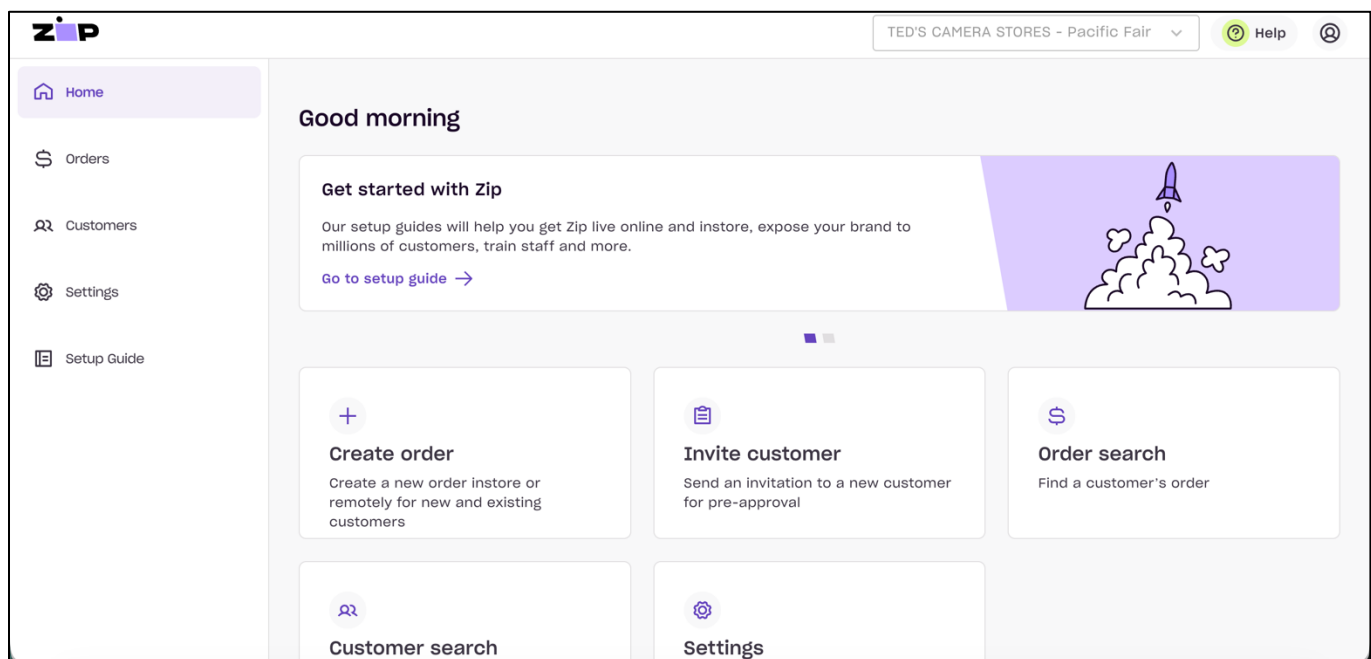

Step-by-Step Process

Step 1: Log in to Zip Merchant Dashboard

- Log in to your **Zip Merchant Dashboard** using your store credentials.
- Confirm you are logged into the correct store and merchant account. (If applicable)

Step 2: Create a New Order

- Select **Create Order** from the dashboard menu.

Step 3: Enter Order Details

Complete the following fields:

Customer In-App Barcode

- The customer must:
 - Open the **Zip app**
 - Select **Pay**
 - Choose the account they wish to use (**Zip Pay, Zip Plus, or Zip Money**)
 - Select **Generate Barcode**
- Scan or enter the barcode provided by the customer.

Price

- Enter the **total order value**.

Product

- This will **auto-populate** based on the in-app barcode.

Interest-Free Period

- If the customer is using **Zip Money**, select the applicable **interest-free term** and confirm with customer.

Order Reference

- Enter an **sales-order or back-order number**

Unique order reference

Step 4: Create the Order

- Review and confirm all entered details are accurate.
- Click **Create Order**.

Create order

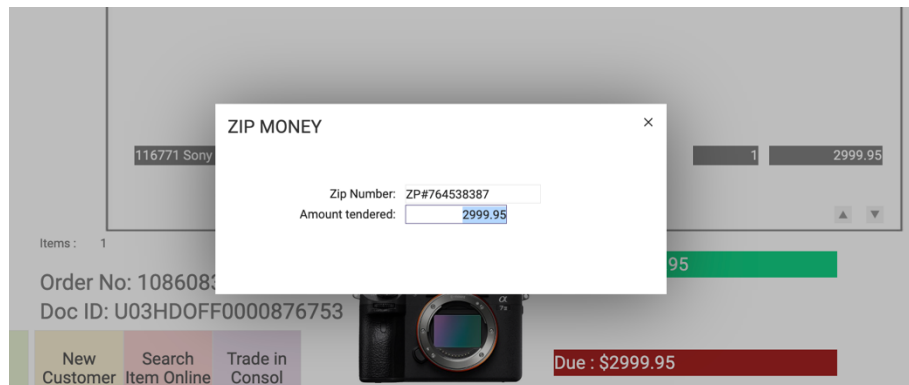

Step 5: Customer Confirms Payment

- The customer must **confirm the order** in their Zip app to finalise the payment.
- Once confirmed:
 - A confirmation message will appear on your screen.
 - The order status will update to **Completed** in the **Order Search** tab.

Step 6: Process in Pronto

- Process successful Zip payment in **Pronto POS**
 - Select **Other Tenders → Zip Money**
 - Enter Zip reference number (ZP#_____)

In-App Barcode Tips & Troubleshooting

Green Tick Displayed

- The barcode is **valid** and ready to use.

Red Error Displayed

- The barcode is invalid. This may occur if:
 - The barcode has **expired** (valid for **5 minutes only**)
 - Ask the customer to generate a new barcode in their Zip app.
 - The customer's account is **locked** or **linked to another merchant**
 - The customer must contact **Zip Customer Experience** for support.

Compliance & Responsibility

All team members are responsible for ensuring this process is followed **correctly and in full**, in accordance with **company procedures and Workplace Health & Safety (WHS) standards**.

Zip transactions must be treated **the same as any other payment method**. Team members must ensure that:

- The payment has been **successfully approved and confirmed** in the **Zip Merchant Dashboard**.
- The order status displays **Completed** before proceeding.

No products are to leave the store under any circumstances until payment approval has been fully confirmed.

Failure to follow this process may result in financial loss, compliance issues, or disciplinary action
