
Pronto / Repairs and Credits / **6.30 Protog Credit Claim Procedure**

Protog Credit Claim Procedure

Version 1

Protog Credit Claims

Step 1: Request Return Authorisation

- Contact Protog via orders@protog.com.au.
- Provide the relevant **product details**, including the product description and serial number where applicable.
- Provide a clear **description of the fault or reason for return**.
- Request assessment and a **Return Authorisation (RA) number**.

Record the RA

Protog will assess the request and advise whether the item is to be:

- Repaired
- Replaced
- Credited

Once the RA number is received, record it for use on the credit claim and return shipment.

Important: Do not return the goods to Protog until the return has been approved and an RA number has been provided, unless otherwise instructed by Protog.

Step 2: Create the Credit Claim

- If Protog approves the item for credit, create the **credit claim in Pronto** using the standard credit claim procedure.
- Ensure the **Protog-issued RA number** is recorded with the claim where applicable.
- Ensure the claim accurately reflects the product being returned.

Step 3: Return the Goods

Unless otherwise advised by Protog, send approved returns to:

Protog Pty Ltd

Unit 24, 21-43 Merrindale Drive
Croydon South VIC 3136

Important: Ensure the RA number and relevant credit claim documentation are included with or clearly referenced on the return.
