

Backorder second hand item to transfer in and Dispatch from another Location

1 Backorder second hand item to transfer in

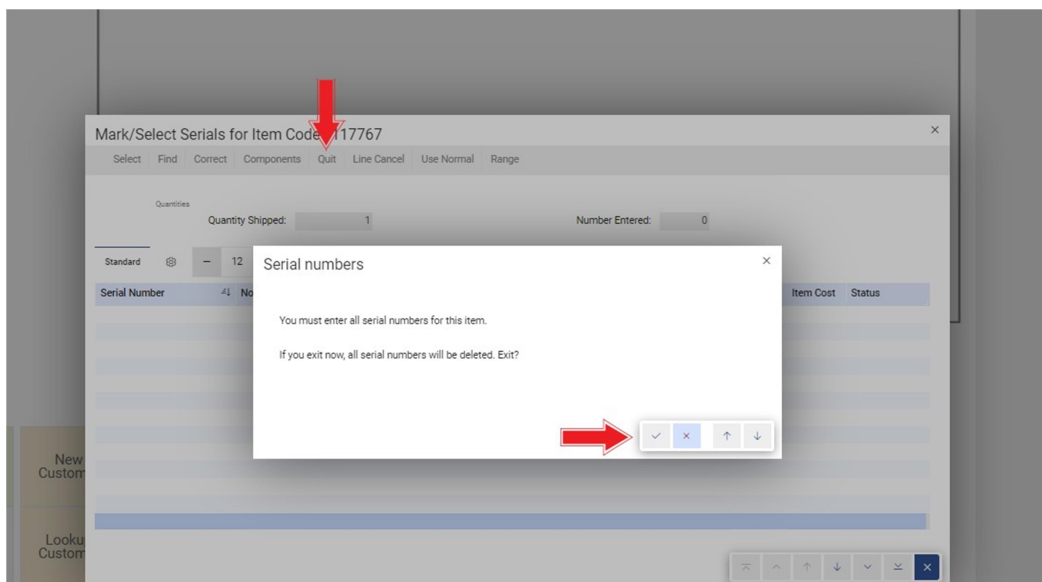

Create order as per normal

Search and select the item you want to put on back order as you would for a normal stock item.

When you are asked to mark the serial number you want to dispatch press "Quit"

Press the tick box on the next warning screen you get indicating that serial numbers will be deleted

Back order the line and change shipped qty to 0 and back order qty to the qty you are selling

Quantity to Ship/Backorder

117767 2ND HAND - Canon EOS 5DMKIV (BO:1) 1 2499.95

Due: \$0.00

Organise transfer as per normal transfer process

When item/s arrive and you go to complete the sale process you will be asked to assign the serial number

PLEASE NOTE you will not be able to sale out the order until the transfer has been received into the system. If it is not received the serial number will not be available for you to choose.

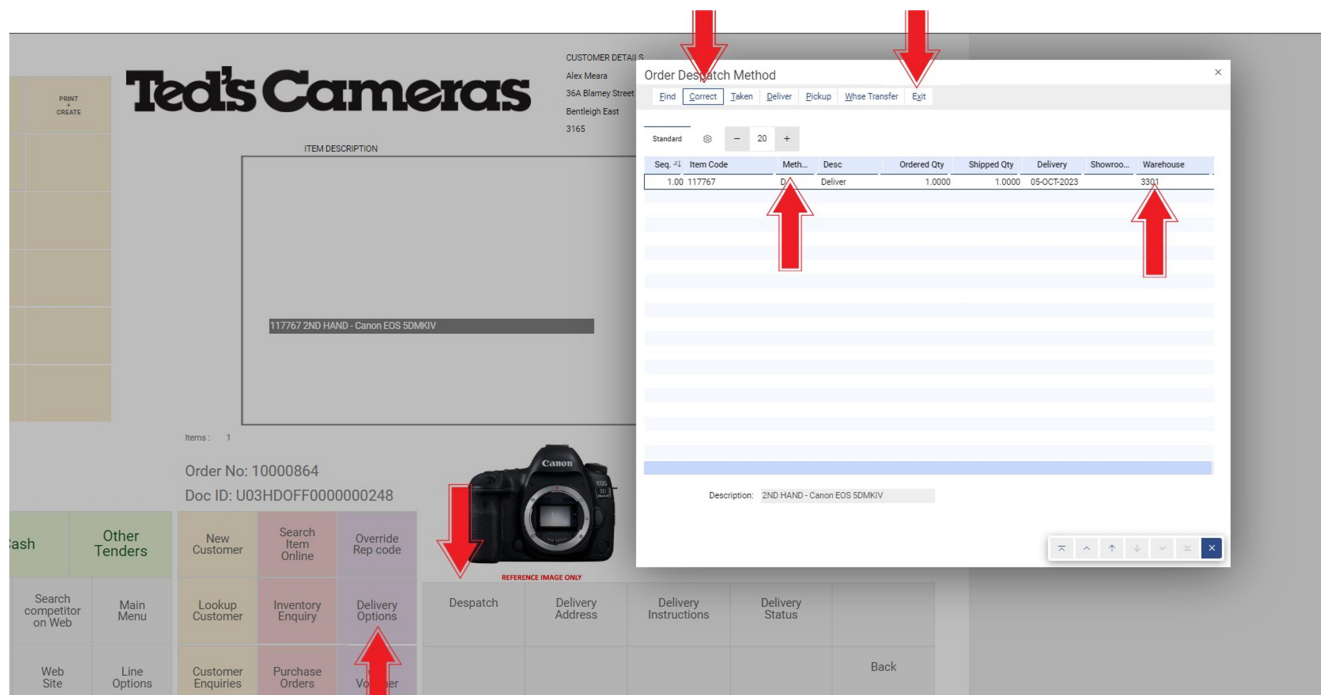

2 Dispatch second hand item from another store direct to end customer

Start order as normal. Search and select the item you want to put on back order as you would for a normal stock item.

When you are asked to mark the serial number you want to dispatch press "Quit"

Press delivery options on your POS screen then press Dispatch

On the dispatch screen press correct on the appropriate stock line, change method to D for delivery change warehouse to the warehouse that will be dispatching the goods then press exit

Take full payment (must be full payment as goods will be dispatched - deposit will push order to credit hold and will not allow dispatch from other store) select tender that customer is paying by.

You will then be prompted to enter the serial number of the item that is been dispatched (you will need to have confirmed this with the dispatching location prior to processing) .**Press Quit**

please ship Priority

Copy to Backorder: ☐

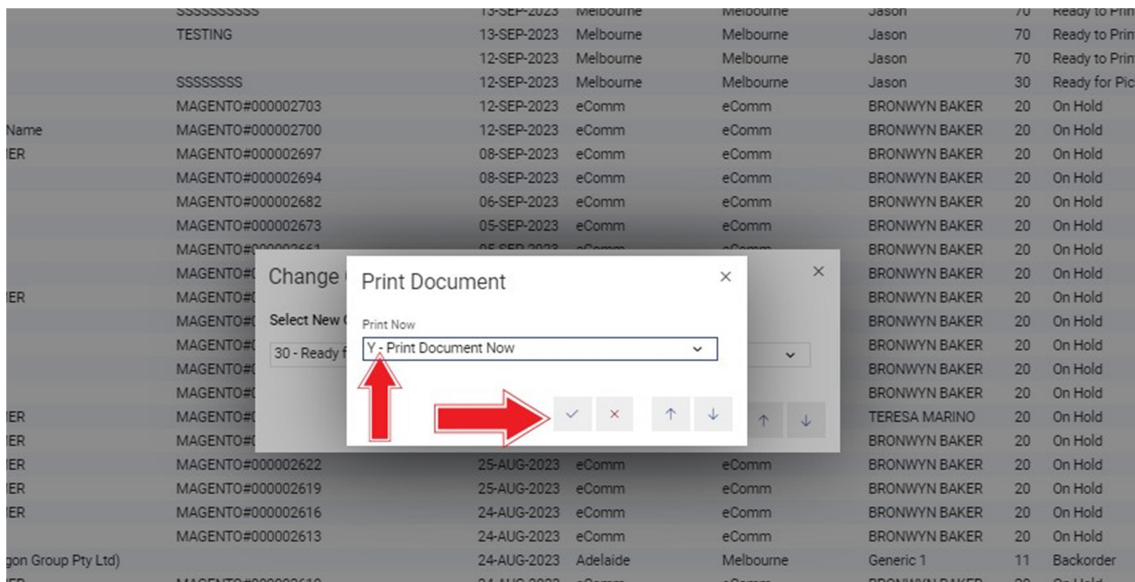

To ensure sending shop dispatches in a timely manner log into Xi and find the sales order that you have just created above

Press change status

Select ready for picking (this is already the status that the order is in)

When prompted to print document now press Y and tick (this will print the pick slip at the sending store to prompt them to action the order (just like a web sale))

- NOTE - Do not change the status to pick slip printed. This option is you telling the system that the pick slip is already printed and it does not need to print so you will not get the prompt asking if you want to print it.
