Drug & Alcohol Policy and Procedure

1. Policy

Ted's Cameras is committed to providing a work environment that is safe and free from risk of injury, discrimination, harassment, embarrassment and intimidation. While Ted's Cameras does not wish to intrude into the private lives of employees, if alcohol or drugs has a direct impact on an individual's work performance or compliance with company policy and safety standards, it is Ted's Cameras's responsibility to all employees to intervene for their protection and that of other employees.

This policy and procedure is intended to ensure that all employees and contractors are in a condition to carry out their work safely. The unauthorised use of drugs and alcohol by employees and contractors is prohibited. Ted's Cameras believes that the consumption of drugs and alcohol in the workplace by employees and contractors represents a potential risk as it may affect an individual's job performance, cause damage to property and equipment, business reputation and endanger lives.

The policy and procedure defines how Ted's Cameras manages drugs and alcohol in the workplace.

2. Scope

This policy and procedure applies to all employees and contractors of Ted's Cameras, who are expected to comply with this policy and procedure.

The policy and procedure applies to:

All Ted's Cameras locations and operations including offices/stores/warehouses under the management or

control of Ted's Cameras and any other person on those sites including workers and visitors.

Any person who is at any time conducting work either for and on behalf of Ted's Cameras .

Any time that any person drives a Company vehicle including after hours and weekends.

Any time that any person drives a motor vehicle not owned by Ted's Cameras that is being used at the time to carry out Ted's Cameras work/business (includes hire cars, contractor vehicles, other vehicles used during and for work purposes).

Any person conducting businesses and representing Ted's Cameras at either, Ted's Cameras premises, client or supplier held social events or functions.

3. Definitions

Manager: Manager, Store Manager, Assistant Store Manager, Relief Manager, Line Manager

Alcohol: a colourless volatile flammable liquid which is produced by the natural fermentation of sugars and is the intoxicating constituent of wine, beer, spirits, and other drinks.

Illegal Drugs: Means drug substances including opiates, amphetamines, marijuana / cannabis, cocaine and metabolites (crack), and other narcotics and other illegal substances not approved by the Therapeutic Goods Administration (TGA) and / or sold legally over the counter in Australia or prescribed by a medical practitioner and supplied by a registered pharmacy within Australia.

Non-prescription drugs: Usually called 'over the counter medication' are drugs which may be purchased without a prescription and from a pharmacy, supermarket or other outlet and are approved for supply in Australia, for example codeine, and antihistamines.

Prescription drugs: Drugs that are lawfully available within Australia by a prescription issued from a licensed medical practitioner, for example: codeine, benzodiazepines, barbiturates or methadone.

Work-Based Social Events: A social event organised by Ted's Cameras on Company premises or other sites.

Working Hours: Means anytime a person performs work for or on behalf of Ted's Cameras and includes meal and other breaks.

4. Policy

Alcohol must not be consumed on Ted's Cameras premises without the express approval of senior management. Outside of these occasions, consumption of alcohol during operating times, and during breaks, is prohibited.

Use of any illicit drug (or any that may affect the safety of yourself or others) is prohibited at all times in the workplace and during rostered work hours.

Employees who are taking prescription or over the counter drugs that contain specific warnings on use (that impact on the workplace) that are deemed relevant to their duties should bring the matter to the attention of their manager or Human Resources.

Check with their medical practitioner whether the medication has the potential to impact their ability to safely perform their work.

Provide a copy of a medical certificate from their medical practitioner confirming that the medication does not have the potential to adversely affect the individual's ability to safely perform their work, where requested by their manager.

Where deemed necessary, the manager may assign the individual appropriate alternative duties. If no suitable duties are available, the employee may be stood down from work on personal leave until deemed fit to return to work.

If you attend work whilst under the influence of alcohol or drugs or appear to be under such influence, (*refer Appendix 1*) Ted's Cameras has the right to refuse to allow you to work on the grounds of health and safety and to not make payment for time not worked. Any employee or contractor suspected of being impaired due to the consumption of drugs or alcohol will be removed from the workplace immediately.

Employees working with a colleague who they believe to be working under the influence of alcohol or drugs have a responsibility to inform their manager or Human Resources to ensure the safety of all employees.

Employees working with a colleague whose job performance they perceive to be adversely affected by alcohol and / or drugs are encouraged to support their colleagues in seeking appropriate assistance.

If the above strategies are not effective and the employees' work performance continues to be adversely affected by misuse of alcohol or drugs, unsatisfactory performance or disciplinary action may be invoked.

Ted's Cameras will provide induction and training that includes an overview of the Company's drug and alcohol policies, procedures and practices.

Where an employee fails to seek assistance for an alcohol or other drug problem and their behaviour is improper, unsafe or impacts upon the well-being or enjoyment of others, disciplinary provisions will be invoked which may result in termination of employment.

Those who breach this policy and procedure will be subject to disciplinary action, including possible termination of employment or cessation of a contractor's engagement, depending on the circumstances.

Ted's Cameras reserves the right to carry out screening for drugs and testing may be carried out for cause, post incident or as part of a random testing program.

Employees are encouraged to seek assistance if they require support in dealing with an alcohol or drug related problem of their own. Employees are encouraged to contact their own health professional or counselling service. Human Resources can provide you with contact details for support services specific to your addiction.

Minima will treat any requests for assistance from an employee who volunteers that they have a drug or alcohol issue sympathetically.
