Number 16	WHS Induction and Training Procedure	Issue Date: 21/05/20

Work Health & Safety (WHS)

WHS Induction & Training

1. Purpose

The Company is committed to ensuring that all employees and contractors are inducted and trained in the knowledge and skills required to work safely.

2. Scope

This policy applies to employees and contractors of the Company.

3. Responsibility

Work Health & Safety Coordinator and Human Resources are responsible for ensuring that employees and contractors are adequately trained to carry out their job tasks.

Employees and contractors are responsible for attending, participating, and completing required WHS training in a timely manner.

4. Definitions

The Company: the following companies: Ted's Camera Stores (Vic) Pty Ltd, Minimax Pty Ltd and World Net (Aust.) Pty Ltd.

Manager: Supervisor, Team Leader, Manager, Subject Matter Expert, staff that supervise front line staff.

Award: refer to the General Retail Industry Award 2010.

5. Policy Induction Training

Prior to the commencement of work, induction training will be provided to all employees, contractors and visitors to the workplace: office, store, warehouse or other Company premises. The induction will be valid for 2 years and will cover the following:

Work Hazards and control processes to be implemented.

Workplace Inspection Requirements.

Consultation Procedures

Hazard and Incident Reporting processes

First Aid

Emergency contacts

Emergency Management Procedures

General induction is completed online and location / store specific induction is to be completed by the Store/ Assistant Store Manager using the **Induction Checklist**.

Induction records will be maintained, together with details of items covered, such documentation will be available for any audit process. The WHS Coordinator is responsible for these records.

Additional Training for Managers

If you are a Manager (responsible for leading and managing staff) you will have additional training in regards to your supervisory obligations for health and safety.

This training is available online on the LMS System, and also delivered as part of the Senior Development Program (for Ted's employees) which all new managers attend.

As employees are promoted, or placed in a supervisory positions during the course of a project / new store they are provided with suitable training to manage their OH&S responsibilities.

Task Specific Training

In consultation with employees and contractors, training needs in relation to performing work activities competently are identified. Procedures are in place to ensure that WHS competencies are developed and maintained. Employees and contractors are assessed as competent, on the basis of skills achieved through education, training or experience, to perform assigned tasks taking into account the WHS obligations, hazards and risks associated with the work activities.

The Company ensures that all employees and contractors (and visitors) have undertaken training appropriate to the identified needs.

Awareness Training

Broad based training provided to employees with the aim of increasing awareness of OH&S issues in the workplace.

Skills and Training records

The WHS Coordinator maintains detailed records of skills, competencies and training for all employees and contractors. These records are reviewed regularly to ensure that they are up to date and relevant. During the review process, any training needs, including WHS, are identified and a training program established (or external training is sourced).

A register of training inductions and licenses has been established which records all relevant competency details for employees of the Company. A copy of documentation is also kept on the employee's personnel file.

The Company requires that all employees and contractors have appropriate certification, licenses, permits to work, training and are familiar with any JSEA/SWMS relevant to the work being undertaken.

Job Specific Hazards

Before a worker commences work, the responsible manager will ensure that they have received any job specific WHS training. The responsible manager will ensure that the employee is made aware of the hazards and risks present and ensure that all protective clothing and equipment is available and in use. Job safety will then be monitored and supervised continuously.

Approval to Train

WHS training shall be carried out by appropriately trained and experienced personnel. The WHS Coordinator will check the trainer has the necessary skills, experience and knowledge before authorising that person to commence training. Where the training involves plant, equipment or materials for which

specific qualifications, licences or knowledge is required, the trainer must be qualified to deliver that training.

Training and Licences Matrix

Type of Training	Who is to be trained?	Frequency

Induction	All staff, contractor and visitors	On or prior to commencement then every 2 years
WHS Initial Level Training (including Risk Assessment, Consultation, Legislation and Incident Investigation) Note: Elected HSRs are entitled to the 5 day WHS Initial Course	WHS Committee Members	Once with freshers as required
