

Work Health & Safety Policy

Version 1

	Ted's Cameras	Version: 2
Number 1	Workplace Health & Safety Policy	Issue Date: 24/8/2022

Workplace Health & Safety Policy

1. Purpose

Ted's Cameras 's Workplace Health & Safety (WHS) Policy reflects our commitment to a safety culture and recognises its responsibility for providing a safe and healthy work environment for all employees, contractors, customers and visitors.

In fulfilling this responsibility, management has a duty of care to provide and maintain so far as practical, a working environment that is safe and without risk to health. Ted's Cameras is committed to regular consultation with employees to ensure the working environment is safe for all, and that health and safety issues are regularly reviewed.

2. Responsibility

Ted's Cameras management and its directors are responsible for the implementation and monitoring of this policy. The health and safety duties of management and employees at all levels are detailed, and Company procedures for training and back-up support must be followed.

3. Scope

This policy applies to all employees, contractors, customers and visitors.

4. Exclusions

Not applicable

5. Policy

Ted's Cameras recognises that hazards occur in retail stores, warehouses and office environments and takes every practical step to provide and maintain a safe and healthy work environment for all employees. We are committed to action that is in line with relevant Workplace Health and Safety legislation, compliance codes and appropriate standards, by;

-  Providing an environment that promotes and supports the physical and psychological health and well-being of employees in the workplace in line with company values and Code of Conduct.
-  Maintaining a process of continuous improvement of the safety management framework, systems and processes ensuring safe practices are maintained at all locations.
-  Ensuring staff are appropriately trained and educated in the areas of WHS in line with position accountability and responsibilities including individual obligations to personal safety.
-  Reflecting WHS expectations within position descriptions, performance development and planning processes.
-  Reporting on WHS performance targets at the business level.
-  Evaluate WHS performance through analysis of best practice and bench-marking with industry peers.
-  Providing facilities, equipment, resources and services to enable employees to perform their role safely.
-  Regularly communicating with staff in relation to WHS initiatives and programs that support a workplace health & safety culture.
-  Ensuring WHS is an integral part of all Ted's Cameras management systems and operations.

To this end, we all have a role to play in keeping Ted's Cameras a safe place to work.

Management:

-  Will observe, implement and fulfil its responsibilities under WHS/OHS Acts and Regulations relevant to each jurisdiction.
-  Will consult with employees on WHS matters in a collaborative manner

-  Will assess health & safety performance and resources in co-operation with those designated and/or elected with health & safety functions.
-  Will make regular assessment of health & safety performance and resources in co-operation with those designated and/or elected with health & safety functions.
-  Will ensure that all specific procedures operating with Ted's Cameras – first aid, evacuation, risk management, training, incident and hazard management and systems of work are periodically revised and consistent with our health & safety objectives.
-  Will provide information, training and supervision for all employees in the correct use of plan equipment and substances used throughout Ted's Cameras .
-  Will maintain all relevant information and records relating to employees' health & safety.
-  Must be informed of hazards, incidents and accidents occurring on Ted's Cameras premises, or to our employees.
-  Ensure physical and psychological health and well-being of staff is promoted and supported through participation in 'safety walk-arounds' and in programs and initiatives designed to enhance employee well-being.
-  Embed a culture whereby employees are encouraged to discuss health and safety issues and concerns in a transparent and open manner.
-  Be leaders and uphold core safety values.

Employees:

-  Assume individual accountability for personal health and safety including psychological well-being.
-  Have a duty to take all reasonably practical steps for their health & safety, and that of others affected by their actions at work.
-  Must comply with the safety procedures and directions made in the interest of work health and safety.
-  Undertake tasks in accordance with relevant standard operating procedures and/or work instructions.

-  Must not wilfully interfere with or misuse items, facilities or other resources provided in the interest of health, safety, and welfare of employees, contractors, visitors and customers.
-  Where appropriate and available, participate in workplace health & safety training, programs and initiatives to embed a safety culture.
-  Participate in health and safety consultative forums and contribute ideas to improving health and safety of Ted's Cameras
-  Must, in accordance with the *Incident Management Procedures*, report work health and safety breaches, hazards and incidents, including near misses and assist with actions to reduce and eliminate risks.

Contractors:

-  Comply with all OHS requirements as set out in Ted's Cameras contracts.
-  Work safely at all times to protect themselves and those working with them.
-  Report all hazards and incidents, including near misses to your Ted's Cameras contact.
-  Take reasonable care for their own health and safety and not place at risk the health and safety of others.
-  Cooperate with others in relation to actions taken by Ted's Cameras to comply with Occupational Health & Safety legislation.
-  Undertake tasks in accordance with relevant standard operating procedures or work instructions.
-  Wear appropriate personal protective equipment (PPE) specified in standard operating procedures or working instructions as required.
-  Seek supervision and guidance from relevant supervisor for new or modified work procedures.
-  Where required, participate in health and safety information, training and induction procedures

WHS Coordinator:

-  Manage the ongoing development and maintenance of workplace health and safety practices in line with legislations, systems and processes with Human Resources to support line managers and employees in meeting their health and safety responsibilities.
-  Support the effective communication and education of WHS roles and responsibilities throughout Ted's Cameras .
-  Manage the organisational health and safety risk register.
-  Lead the education process for
 -  Safety inspections and audits
 -  Investigation and reporting of incidents, including near misses
 -  Hazard identification and risk controls
 -  Manage the early intervention process for employees remaining in the workplace or returning to the workplace after an injury or extended absence.
 -  Report of WHS performance in line with key performance indicators.
 -  Ensure the effective implementation of the WHS committee structure and related forums for employees to raise health and safety issues and to have these issues addressed.
 -  Facilitate record and report on all WHS training and education requirements including maintenance of compliance training and refresher training needs.
 -  Ensure the physical and psychological health and well-being of staff is promoted and supported through the development and implementation of programs and initiatives designed to enhance employee well-being.
 -  Lead and promote safety culture.

This Policy will be regularly reviewed in consultation with employees to ensure alignment with any company and

legislative changes.

Ted's Cameras seeks co-operation from all employees in realising our health & safety objectives and maintaining safe work environment. All employees will receive communications of any agreed changes and arrangements for their implementation.

6. Definitions

WHS: Workplace Health and Safety (WHS), often referred to as Occupational Health and Safety (OH&S) involves the assessment and mitigation of risks that may impact the health, safety or welfare of those in the workplace.

Health: The legislation defines *health* as both physical and psychological well-being in the workplace.

Workplace: a place where people work, this can be office, store, warehouse, external training facility or location where a post-work event may be held such as a restaurant or other external venue.
