

MIRRORLESS CAMERA ACCESSORIES

CHECK LIST

MEMORY CARDS

Mirrorless cameras are powerful. For high-speed photo capture and high-quality video, most manufacturers recommend high-speed SD cards or CFexpress cards. Some options include:

- **UHS-I 200mb/s SD Card:** Minimum requirement for basic photography and limited video capture.
- **UHS-II V90 300mb/s SD Card:** Better for capturing high-speed photo and video.
- **CFexpress Type A or B Card:** Recommended for extended high-quality video capture and maximum reliability.

BATTERIES AND CHARGERS

Extra batteries and a reliable charger are essential for extended shooting sessions. Most mirrorless cameras require multiple batteries for a full day of both photo and video capture.

LENS FILTERS

Enhance your photography and videography with UV filters, polarizers, and ND filters.

- **UV filter:** Protects lens elements.
- **Polarising filter:** Reduces glare during the day.
- **ND Filter:** Long exposure photography.
- **Variable ND filter:** Professional video capture.

TRIPODS AND MONOPODS

A sturdy tripod or monopod is essential for stable photos and video. Manfrotto and Benro offer high-quality options.

ON-CAMERA / WIRELESS MICROPHONE

Enhance videos audio quality with a good on-camera microphone or wireless microphone setup. Some recommendations include:

- **Rode VideoMicro II:** Great for entry-level video capture.
- **DJI MIC and Rode Wireless Go II:** Perfect for isolating audio capture for multiple subjects.
- **Rode Wireless Pro Microphone Kit:** Compact professional audio solution with high-quality audio capture

CAMERA BAGS

A well-padded camera bag with protect your gear and provides many years of peace of mind. Lowepro and Think Tank are known for their durable and functional designs.

EXTERNAL FLASH

Use an external flash for better photos in low-light conditions. Genuine flashes typically provide the most functionality, however, Godox flash systems are a great value alternative.

BATTERY GRIP OR CAGE

Improve comfort and handling with an extended battery grip. Battery grips will not only substantially extend battery life, but it also creates a much more comfortable shooting experience, especially for portrait photography.

CLEANING KIT

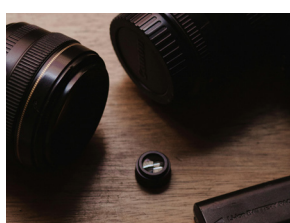

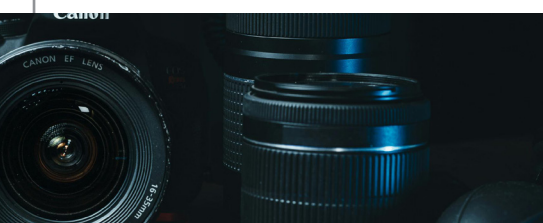

Keeping a camera and lenses clean is essential for longevity. Recommend a cleaning kit that includes a blower, microfiber cloth, and lens cleaning solution.

SCREEN PROTECTORS

Protect your LCD from scratches, potential damage and provide extra peace of mind with a screen protector.
