

VIDEO & CINEMA CAMERA ACCESSORIES CHECK LIST

MEMORY CARDS

Video and cinema mirrorless cameras can capture very high-quality video. This is why most manufacturers recommend high-speed SD cards or CFexpress cards. Some options include:

- **UHS-I V60 250mb/s SD Card:** Minimum requirement for most high-quality video capture at “normal” frame rates. (24-30FPS)
- **UHS-II V90 300mb/s SD Card:** Ideal for capturing high-quality video in faster frame rates
- **CFexpress Type A or B Card:** Recommended for high-quality (high bitrate), high resolution (i.e. 6K & 8K) recording, high frame rates (i.e. 120FPS) and maximum reliability.

BATTERIES AND CHARGERS

Video is very demanding on a camera. Mirrorless cameras will require multiple batteries for extended video capture or a larger capacity battery like a V-Mount battery to run the camera.

TRIPODS AND MONOPODS

A video “fluid head” tripod is essential for smooth panning and tilting video footage.

Alternatively, a gimbal allows the user to capture smooth and dynamic video. Great options include:

- **Basic Video Tripod:** Manfrotto MK290LTA3
- **Video tripod:** Manfrotto MVK502AM
- **Gimbals:** DJI RS4 mini, RS4 and RS4 pro

LENS FILTERS

Enhance your videography with UV filters, polarizers, and ND filters.

- **UV filter:** Protects the front lens element
- **Polarising filter:** Reduces unwanted glare
- **Variable ND filter:** Enhances video capture by allowing for “180-degree shutter speed rule”

ON-CAMERA / WIRELESS MICROPHONE

Enhance videos audio quality with a good on-camera microphone or wireless microphone setup. Some recommendations include:

- **Rode VideoMicro II:** Great for entry-level video capture.
- **DJI MIC and Rode Wireless Go II:** Perfect for isolating audio capture for multiple subjects.
- **Rode Wireless Pro Kit:** Compact professional audio solution with high-quality 32-bit audio capture.

CAMERA BAGS

A well-padded camera bag with protect your gear and provides many years of peace of mind. Lowepro and Think Tank are known for their durable and functional designs.

VIDEO LIGHTING

Lighting equipment is essential to enhancing your video quality. Common options include:

- **Ring Lights:** Small and ideal for close-up shots and vlogging.
- **LED Panels:** Popular due to their versatility and energy efficiency (can run on battery)
- **COB Light / Softbox:** Excellent choice creating a diffused lighting,

CAMERA CAGE

Camera cages can expand the functionality of your camera by allowing for safe mounting points for accessories such as: camera viewing monitors, microphones, V-mount batteries and extra handles and grips. Reputable brands include:

- **Smallrig**
- **Tilta**
- **Condor Blue**

EXTERNAL MONITOR

External monitors can expand the functionality of modern mirrorless cameras by allowing for external RAW recording. Viewing monitors provide a much better user experience by allowing user LUT input, exposure tools and a larger high-definition view experience. Brands include:

- **Portkeys (Mostly viewing monitors only)**
- **Atomos (Viewing and recording monitor options available)**
- **SmallHD (Professional viewing monitor options)**

CABLES AND BATTERIES

Accessories are required to operate external monitors, including:

- **A HDMI cable is required to display the video**
- **NP-F550, NP-F570, NP-F750, NP-F770 and NP-F950 NP-F970 batteries are required to power external monitors**
- **A V-Mount battery can be used to power both the camera and external monitor using USB-C, D-Tap and DC-Barrel Cables.**

CLEANING KIT

Keeping a camera and lenses clean is essential for longevity. Recommend a cleaning kit that includes a blower, microfiber cloth, and lens cleaning solution.
